## **Advanced Notice of works in your area**

### **B4RN Fibre Broadband installation in 2025**

Dear Resident/Business Owner,

We have already started the construction of B4RN high-speed-fibre broadband network in Grindleton and Sawley. This phase of the network build covers areas which require streetworks construction, using pavements and carriageway. Please see the second page for information about the streets which are covered by this letter.

The installation consists of progressively trenching along pavements to install ducting and “toby boxes”, one at the boundary of each property. Where there is no pavement, the carriageway is used instead, and the exact route is carefully considered. The toby box is buried at ground level, and it forms the connection point between each property and the main fibre broadband network. During construction there will be footways and roads closed or diverted in accordance with regulations and the trenching will also cross the road in some places to a pre-planned route. All works will be carried out within approved planning and Streetworks Regulations and under appropriate permits from Lancashire County Council.

During construction, the contractors will always consider pedestrian & property access, ensuring that access is available. If you need to take your vehicle in or out when the works are close by, please do talk to the contractors directly with any concerns regarding access.

We understand that parking may be difficult whilst our works are being carried out and contractors may need to ask you to temporarily move parked cars so that they can progress the installation as quickly and efficiently as possible down the pavement. We thank you in advance for your patience and understanding while the network is installed.

If you have any questions about the scheme, please send an email to Sam: [s.robson@b4rn.org.uk](mailto:s.robson@b4rn.org.uk)

You can find out more about B4RN at [www.b4rn.org.uk](http://www.b4rn.org.uk) and if you would like to sign up for fibre broadband please go to [www.b4rn.org.uk/getb4rn](http://www.b4rn.org.uk/getb4rn) and enter your postcode.

Yours sincerely

Broadband for the Rural North Ltd

Work estimated to start on Sawley Road: 24/02/2025

The works will progress through the village with an expected duration of 6 weeks.
